

How to integrate Prolific with studies from Labvanced.com

These are the steps in order to run a study created on Labvanced.com via Prolific:

1) Go on Labvanced.com and publish your study (Publish & Record Tab)

2) Copy the “Prolific Link” to your clipboard by clicking on the respective icon next to the link

Prolific:

Prolific Completion URL: Save

Link (for Prolific): <https://www.labvanced.com/player.html?id=2688&type=link>

3) Go to app.prolific.co and paste that link as the study URL for the respective experiment.

Note: This URL should end with: “&type=link”

What is the URL of your study?

4) Choose I'll use URL Parameters (i.e. prolific_PID).

How do you want to record Prolific IDs? *(Select an option below for instructions)*

I'll add a question in my study I'll use URL parameters I don't need to record these

5) Choose "I'll redirect them using a URL" for study completion. Then copy the "completion URL".

How do you want to confirm participants have completed your study? *(Select an option below for instructions)*

I'll redirect them using a URL I'll give them the Completion Code to copy & paste

Please set up your survey tool to redirect participants back to the Prolific app. This URL includes the Completion Code so we can capture it automatically.

Please note this must be at the very last step of your survey.

Copy

6) Copy this completion URL into the Labvanced completion URL input field and press save.

Prolific:

Prolific Completion URL:

Save

Link (for Prolific): <https://www.labvanced.com/player.html?id=2688&type=link>

That's it:-)

Test)

When the experiment is finished the participant should see the completion link/URL to Prolific, and can just click the link, which will redirect them back to Prolific to be awarded credit or marked as complete. Please ensure that this completion link/URL works as expected.

Thank you! The experiment session is finished.

Please follow this link to claim your reward: <https://app.prolific.co/submissions/complete?cc=Q10D4QIK>
